THE GODS WE CAN TOUCH

THE GODS WE CAN TOUCH

, it was hard

From when I heard its name in my head, to think of anything else.

This album grew bigger in my mind, and I ~~kn~~ knew I had to give a lot of my attension to the past

The past of people, and our ways

I've always been fascinated by religion. And spiritualism. What helps us, what ~~frightness~~ frightens us and how we all use the greater unknown to mend, destroy, create, worship or rule

We have had such a deep hungry need for there to be something more to this life.

To this world. And to us

We have longed for the unknown to be ~~answered~~ answered

And for the meaningless to have meaning.

We wonder. And we still don't really know anything.

It seems We always has need something to believe in
Or Someone to took to
Or Something to Worship

It gives - - — comfort ? — — — maybe ?

I wish there was
room for judement
towards ourselves
and other

Being inclined to
be good to do good
to be better and
Do BETTER is always
important. I strongly believe
human beings have so much
potential.

We like to be led towards something, they will eventually.
. We like to ask questions, and accept whatever answer they give us. It gives us - - - ~~something~~ comfort ? definitely
What is intersting is we seem to be draw towards - perfection people have on Earth because of their mind, their Beasty, Their Wealth Or something divine. A complete divine being a leader
Perfection is fascinating. And in some cases, inspirational. But I fear in other cases. I don't always think it makes us happy.
I think It ~~would be great~~ is essential to worship something/someone
We can also see ourselves in To know tho "Good enogh" Could be achieved within our imperfect Human frames.
At least We deseves it.
